Decree Repudiating \$60,000,000 Note Issue by Provisional President

## NEW CABINET APPOINTED

Military Rigor Has Decreased But Absolute Order Prevails In Capital—Thieves Disguised as Soldiers Summarily Executed.

(ASSOCIATED PRESS TELEGRAM)  
Mexico City, Aug. 19.—A decree is to be issued tomorrow by the governor of the federal district repudiating government notes of the issue of July 25 last. The issue was made during the regime of Provisional President Francisco Carbajal on the authorization of the \$60,000,000 six per cent. ten year gold bonds made by the Huerta administration. About \$10,000,000 of this paper is now in circulation. The repudiation is based upon the decree issued by Venustiano Carranza, April 26, refusing to recognize the acts of the Huerta government.

The new constitutional cabinet was announced tonight as follows: Minister of foreign affairs, Ysidro Fabela; minister of the interior, Eliseo Arredondo; minister of public instruction, Dr. Miguel Salva; minister of communications, Ygnacio Bonillas; minister of finance, Felicitos Villareal; minister of war, Eduardo Hays.

The appointment of minister of justice has been deferred awaiting the re-organization of the courts. The mustering out of the federal troops is proceeding rapidly. Four thousand were released today, each enlisted man receiving \$10 and his fare home while the officers received \$20 and their fare.

While absolute order prevails everywhere, the rigors of military government have been in a way slackened. The thieves disguised in the uniforms of constitutionalists were summarily executed at a police station today and their bodies exposed to the view of the curious crowds. As in former cases warning placards were pinned on the breasts of the dead men.

The courts were closed today while railways and telegraph lines continue to be operated for military purposes only, although it is announced that passenger traffic between Mexico City and Vera Cruz will be resumed this morning. A committee of American women tomorrow will journey to the headquarters of Gen. (Continued on Page 8, Col. 1.)

## RELIEF SHIP

DID NOT LEAVE AS EXPECTED TO THE AID OF STRANDED AMERICANS.

Henry Breckenridge in Charge at Falmouth is Waiting to hear More Definite News.

(ASSOCIATED PRESS TELEGRAM)  
Falmouth, England, Aug. 19.—via London 11:15 a. m.—The United States cruiser Albatross, which should have sailed at dawn today for the Hook of Holland on its mission of relieving stranded Americans in Europe did not depart.

Henry S. Breckenridge, United States assistant secretary of war, in explanation of the delay, said:

"I had expected to receive information from all the European governments promising safe escort for my representatives in conveying treasure to different capitals. I also expected more definite information through Ambassador Walter Page from the continent of Europe as to the exact number of Americans stranded in various countries. As this has not arrived I must stay until it does, so that I can instruct my representatives exactly what to do."

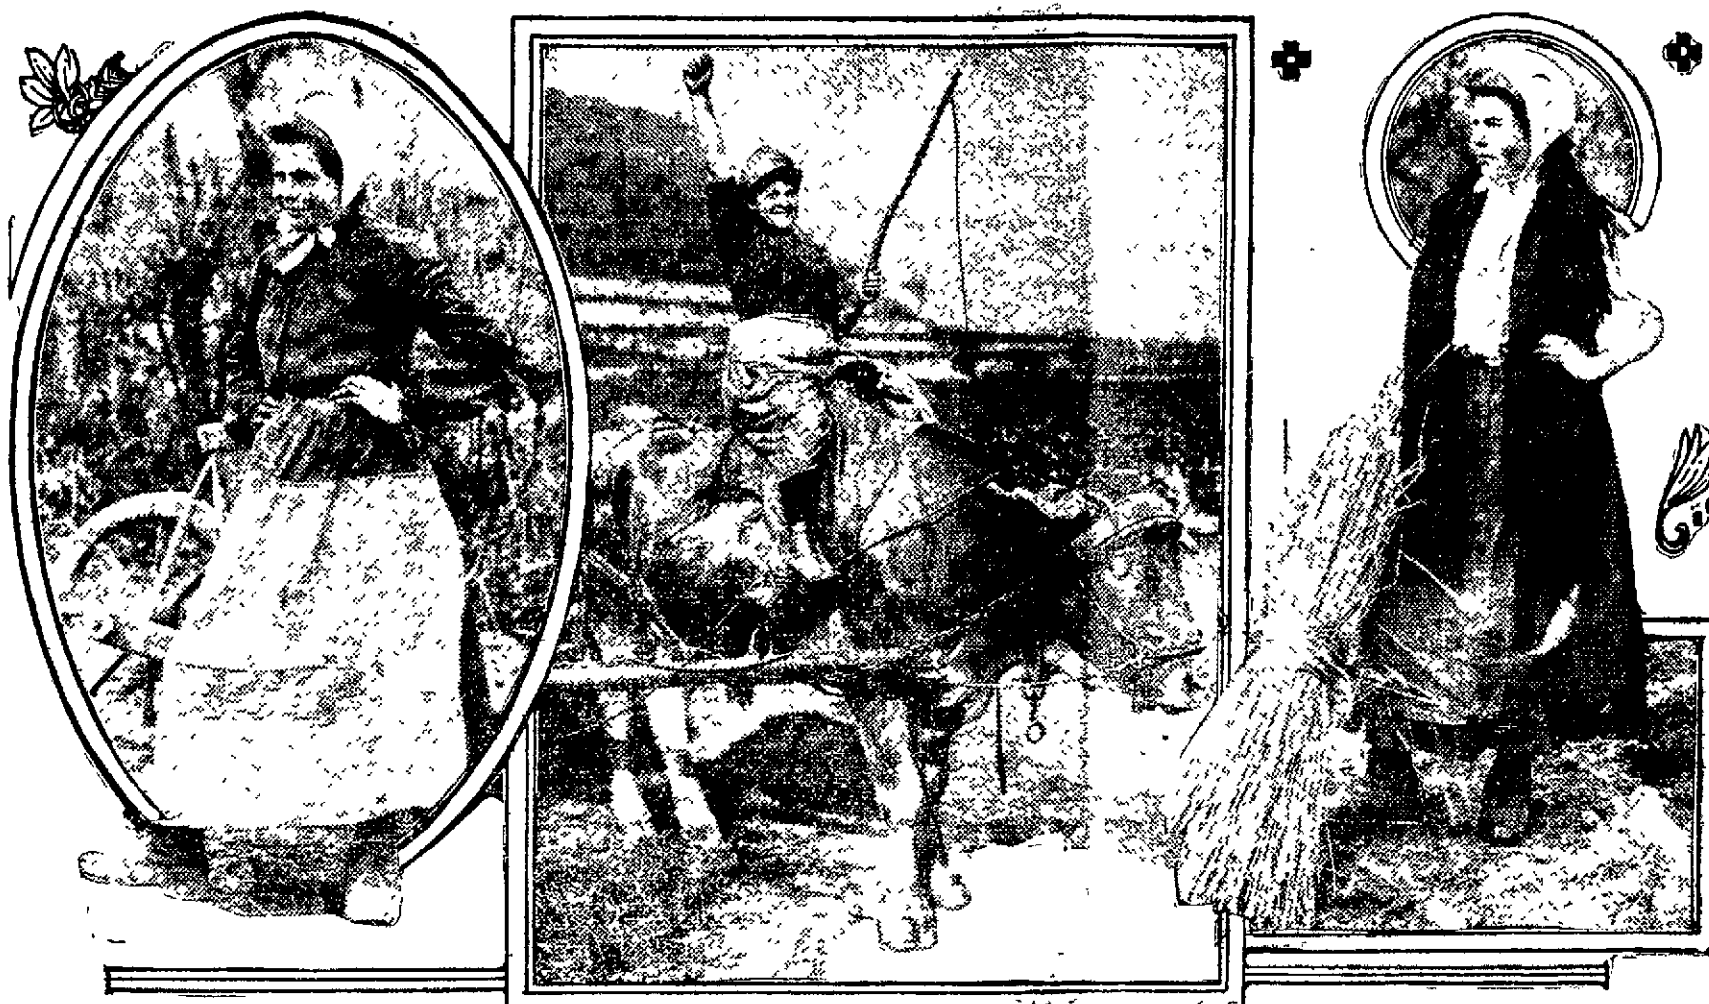

"It is impossible to get information by wireless at sea, in the war area, as we have been asked not to use our wireless in the war area. Therefore at sea we should be cut off from everybody without having perfected our continental plans."

"I shall remain here until I receive all the information."

The cruiser North Carolina which anchored in the channel all night left at dawn for Cherbourg. The Tennessee will communicate with her by cable.

American sailors here complain of the high charges for changing their money. They lose eighty cents on each five dollar piece.

Home-Coming Americans  
Baggageless But Happy,  
Arrive in New York Today

(ASSOCIATED PRESS TELEGRAM)  
New York, Aug. 19.—Home-coming Americans, baggageless for the most part, but glad to be out of Europe, lined the rails of the Red Star liner Finland as she steamed into New York harbor today after a voyage from Antwerp and Dover. All told the liner brought 1082 persons—252 in the first cabin, 215 in the second and 615 steerage.

Sprinkled among the Americans on board were a handful of Germans who were expelled from Belgium, and being unable to make their way to Germany decided to come to the United States. R. DeBarry, agent for the North German Lloyd at Antwerp with his wife and boy was among those expelled notwithstanding that he is a Belgian.

The Finland experienced great difficulty in getting out of the harbor

at Antwerp. The channel buoys were not lighted and mines were everywhere. To make matters worse a Norwegian steamer accidentally sunk by a mine—a fact hitherto reported by cable—obstructed the main channel.

To meet the situation the Finland lightened her ballast tanks and took a small and less frequently used channel, finally getting away on Aug. 8.

At Dover 150 passengers were embarked, a majority of them bedraggled Americans who had fled the continent. Passing down the English channel the liner was repeatedly stopped by British men of war, although she flies the American flag. After clearing Landsend, the voyage was without special incident until the liner was stopped by a British cruiser off Nantucket Light. Another cruiser met her off Ambrose channel lightship at the entrance of New York harbor.

LITTLE BLEEDING  
FROM WOUNDS BY  
GERMAN BULLETS

(ASSOCIATED PRESS TELEGRAM)  
London, Aug. 19.—The daily Express today prints a dispatch from a newspaper man at Ostend, who has been close to the front. The correspondent says he has learned that the German soldiers' equipment is much superior to that of the Belgians, but that the German's shirts, linen and stockings are mostly of an inferior quality.

"The Belgian officers," the correspondent adds, "frequently made easy targets for the sharpshooters because their swords and scabbards glistened in the sunlight. This has now been remedied by covering them with cloth. The German bullets generally make a small, sharp hole. There is little bleeding from the wounds and the recovery of the injured soldier is generally assured."

French Captain  
Asks Governor  
To Be Hostage

(ASSOCIATED PRESS TELEGRAM)  
Paris, Aug. 19.—8:30 A. M.—The Matin reports that the French steamer Sagabehn, held in the Dardanelles by the German cruiser Breslau (reported to have been sold to Turkey) complained to the military governor who asked the captain to leave.

"Good," said the French captain, "but the Breslau threatens to sink us. I will leave on the conditions that we are towed by a Turkish torpedo boat, conveyed by a Turkish torpedo boat, and have you as a passenger until we are out of Turkish waters."

The governor assented.

Mrs. F. H. Draper, of North Vine street, sustained a stroke of paralysis on Friday evening. Her condition is serious.

## Returning Americans Give the Details of Liege Battle

(ASSOCIATED PRESS TELEGRAM)  
New York, Aug. 19.—First hand tales of the fight at Liege and grim narratives of the war sweeping Europe came into port today on the lips of American refugees from the continent aboard the Red Star liner Finland. Many of the Americans aboard were without money or baggage; some had been held as spies; others had made their way on foot from the interior of Belgium to Antwerp amid the scenes and dangers of warfare and nearly all had stories of hardships encountered in the fight.

With a Dutch pilot aboard Captain Barman steered his ship through a little-used channel of the harbor of Antwerp to the North sea where he found the horizon smudged with the smoke of British battleships.

Time after time the ship was stopped by war vessels, although she flew the American flag.

James A. Patten of Chicago and Mrs. Patten, passengers, said they were in Carlsbad when war was declared between Germany and Russia. They left for Nuremberg in an automobile and arriving there were taken to the guard house and rigidly cross questioned before they were allowed to continue. They boarded a crowded train for Ostend but got no further than Boulogne. There they found themselves in a vortex of mobilizing troops and marching citizens which choked the streets. After long delay they managed to get aboard another train for the border, but got no further than the little town of Herbathal near the

## POPE PIUS HAS HAD RELAPSE

POPE PIUS X. GIVING HIS BLESSING.

Rome, Aug. 19, (via Paris, 4:10 p. m.—The Pope has had a sudden relapse.

A bulletin issued by Dr. Marchiafava leaves no doubt that the patient's life is in danger.

It is reported that the Pope has received the last communion. His sisters lighted candles before the image of St. Joseph and remain prostrate in prayer.

frontier which they reached at 10 o'clock at night in a downpour of rain.

"We managed to make our way into a little cafe," Mr. Patten said, "and there we got one slice of bread apiece—our first meal for the day. Next day I hired a horse and cart to take us over the Belgium frontier to Verriers. Three other Americans were with us."

"On the road we passed most pitiful processions of German refugees fleeing from Belgium. Some were in vehicles, but the majority were trudging in the dust, pushing or pulling their baggage in carts. Women with babies at the breast were walking under the noonday sun. From Verriers we proceeded by another cart toward Liege. We had not progressed three miles when we came upon a party of Belgian engineers engaged in mining the road. They had great piles of dynamite stacked ready to plant in the ditches they were digging across the roadway. They advised us we had better go to Liege by another road; we hastened to do so."

"Two hours later another party of Americans were halted at that very spot by a skirmish between the Belgians and Germans. They were forced to lie in a ditch while the Belgians fired over them. Next day 3,000 Germans were killed by the mines we had seen the engineers planting."

"We arrived at Liege at 1 o'clock on the afternoon of Aug. 4 and managed to get a train for Brussels two hours later. But we did not leave before we heard the thunder of the forts' cannon repulsing the first onslaught of the Germans. The town was cold with fear."

GERMAN ATTACK DIRECTED  
BY KAISER WHO IS ON FIELD

Advance Broken By Belgians In One Engagement at Bayonets' Point—Considered Beginning of First Real Battle of War—French Experts Realize Importance of Mighty Effort to Break Into France, But Confident Allied Army Will Crush It—Refugees Crowding Into Brussels.

Complete silence is maintained as to the fortunes of war in the big fight understood to be in progress somewhere along a line extending through Belgium Luxembourg. Despatches give evidence of the presence of masses of German troops pushing their way to the front behind an impenetrable screen of cavalry, whose dashes in search of information as to the whereabouts of the allied troops have resulted in sharp clashes and heavy casualties.

The commanders of the allied forces of French, British and Belgians will not permit anything about their positions to become public, and since the official note made known the presence of a large British expeditionary force on the continent its movements have been hidden from the outside world.

At Brussels it is said there has been no change since yesterday in the position reported then to be excellent for the allies. The fate of the Liege forts is not definitely known. German despatches describe them as in the hands of the German army since the arrival of the heavy artillery while Belgian military authorities assert that they are still intact and holding out bravely.

The German attack is today again reported made on the direct orders of Emperor William himself to his generals in the field.

The exact extent of the line of fighting has not yet been revealed but presumably it stretches in a north and south line. Beyond this its definite location is virtually guess work.

Refugees from Diest, Tienenmon and other towns in that section of Belgium who fled as the Germans approached, are coming into Brussels in great numbers. They declare that since the inhabitants vacated Tienenmon, German shells have been dropped in the town and that subsequently the Belgians broke the German advance there at the point of the bayonet.

Careful study of the military situation on the northern frontier leads French military observers to the conclusion that the events transpiring in Belgium today are the beginning of operations on an immense scale.

Government opinion in Paris, however, is confident that the allies will be able to meet any shock successfully and reply to it crushingly.

In Alsace Lorraine the French turning movement through southern Alsace, appears, from French reports, to be progressing favorably for the French and this seems to receive confirmation in a despatch sent out by the Wolffthreue, the German official news agency, saying two batteries of guns were taken by the French, who continued their march forward.

All these reports however, refer to the preliminary meetings of organized bodies of troops leading up to the great battle which may already have begun. Even leading Frenchmen take occasion to point out to their countrymen that the decisive conflict is yet to come and that too much reliance must not be placed on reports of demoralization among the German troops.

It is reported that a naval encounter has occurred in the North Sea, but this is without official confirmation.

A strong force of German troops is said to have attacked Eydtkuhnen, a German town on the Russian town frontier which was occupied by the Russians soon after the outbreak of hostilities.

The French official note confirms reports of Serbian victory at Shabatz over the Austrian force of 20,000 men. The Austrians are said

to have lost 3,000 killed and 5,000 wounded.

An exhortation to the world by the Pope calls for prayers for peace.

GERMAN SOLDIERS  
IMAGINE THEY ARE  
NOW FAR IN FRANCE

(ASSOCIATED PRESS TELEGRAM)  
London, Aug. 19.—The following official statement, issued by the French war office, is sent to Reuters' Telegram company by its Paris correspondent:

"Correspondence found on the German soldiers show that they are laboring under the strangest delusions. One writes 'already we have penetrated sixty kilometres (about thirty-seven miles) in France.' Another says 'here we are in South France.' Other letters admit cruelty towards civilians, one saying, 'we shot the inhabitants from the ages of 14 to 60, and knocked down thirty dead.'"

## IMPORTS

FROM EUROPE SHOW IMMENSE DECREASE SINCE THE BEGINNING OF HOSTILITIES.

Every Commodity Except Whiskey and Champagne Are Affected in the Decline.

(ASSOCIATED PRESS TELEGRAM)  
New York, Aug. 19.—Custom house reports made public today show that imports since the beginning of the European war have decreased immensely. Imports for the week of July 18 were more than \$3,000,000 above the figures for the week of August 8, the last to be completed. It was said that complete reports for August would show a heavy falling off in imports, but increases are expected in September when more ships are released for commerce.

A sharp falling off of imports between the weeks of July 18 and Aug. 15, is shown in ten of twelve commodities. Whiskey and champagne alone advanced. Sugar, woolen goods, beef, silks, precious stones, automobiles, machinery, photo films, beer, and still wines were the commodities that showed large decreases all due to the lack of ships.

## SERIOUS VIEW OF OPPONENTS BY FRENCHMAN

WHO SAYS THE GERMAN ARMY IS THE MOST REDOUTABLE IN ALL EUROPE.

Outpost Battles May Be Interesting But are No Guarantee of Final Victory.

Paris, Aug. 19.—4:10 A. M.—"Outpost combats, however interesting and characteristic do not justify us in counting upon the certainty of a prompt and definite victory," writes former minister of foreign affairs, Stephen Pichon in the Petit Journal. "I find too much said about the Germans being demoralized. The original overconfidence may give place to doubts but that is all. The war now beginning is a war to the death. On it hangs the existence of

Germany as well as that of France. It will be waged furiously on both sides. It will probably be long and the losses enormous. "Let us make up our minds to the fact that we have to contend with the most redoubtable army in Europe and have need for all our material and moral forces."

## Premature Explosion Of a Dynamite Charge Injures Five Men Badly

Five men were injured, two seriously, at the Everett company's Black Hand stone quarry and gravel pit between Hanover and Black Island at 9 o'clock Wednesday morning, when they drilled into an unexploded charge of dynamite.

The two most seriously hurt are W. H. Andrews of East Newark, and Harley Kreeger, who lives near Black Hand. Of the two Andrews' injuries appear to be the most extensive, and their recovery was not announced as a certainty at the Newark Sanitarium Wednesday afternoon.

The explosion of the blasting charge stripped all the clothing from Andrews' body except his shoes. Kreeger's clothing was torn almost off his body, as the flying chunks of sandstone struck the men without warning. Three foreigners' whose names were not ascertained, were slightly hurt by flying particles of stone.

It is said the escape of the men from instant death was almost miraculous, as both were standing almost directly against the rock, but where the drill was at work making a hole for the planting of a blast charge. The Everett company's offices here were notified of the accident and Jasper Keckley, representative of Mr. Everett, summoned Criss Bros' motor ambulance, which made a record breaking run to the scene of the accident, bringing both of the badly injured victims to the Newark Sanitarium.

Drs. H. H. Postle, J. P. H. Steden, D. M. Smith, W. E. Wytarch and Dr. C. B. Hatch were engaged with the

men for four hours after the accident. Andrews was unconscious throughout the day, but his companion recovered his senses shortly after reaching the hospital.

It was announced at the Sanitarium late in the day that the chances of both men look doubtful. Andrews sustained two deep cuts in the back of the head, the skin was peeled from his face and neck, his right eye is badly injured, a deep gash is cut in the right arm, and both legs are severely lacerated by bits of stone which imbedded themselves in the flesh and muscles.

Kreeger's face and body are covered with cuts. A great hole torn through the abdomen probably was caused by a heavy piece of stone. His left eye was so badly injured that it will have to be removed, and it is likely the sight of the right eye will be seriously affected.

### GAS EXPLOSION BADLY INJURES MRS. R. WEISS

Mrs. Russell Weiss was injured at her home in Buena Vista street on Tuesday evening when the gas in the stove exploded.

She was preparing the evening meal when she attempted to light the fire in the oven. In some unknown way the gas in the oven collected and an explosion followed, Mrs. Weiss being painfully burned about the face and neck.

Dr. P. H. Cosner was called and dressed the burns, which were the most serious about the eyes and lips.

## M'REYNOLDS IS APPOINTED TO SUPREME COURT

Washington, Aug. 19.—The President signed today the following nominations: Attorney General James C. McReynolds to be a member of the United States supreme court. Thomas Watt Gregory of Texas,

JAMES C. M'REYNOLDS  
Attorney General.

to be attorney general of the United States.

Frederick E. Howe of New York to be immigration commissioner, of New York.

Howe formerly lived at Cleveland, Ohio, and was prominent in civic work in that city.

The nominations were presented to the Senate immediately after it convened and were formally referred to committees. There are some indications of opposition to McReynolds confirmation by three or four senators. Administration leaders, however, have no doubt of his confirmation.

## AMERICANS LOATH TO LEAVE BERLIN

The Hague, Aug. 19.—Via London, 4:40 A. M.—Many Americans are loath to leave the German capital, according to a newspaper man who has just reached this city from Berlin after a long trip. In some instances they declare they are quite comfortable.

You never can tell. The strongest man in the world may not be able to lift a mortgage.

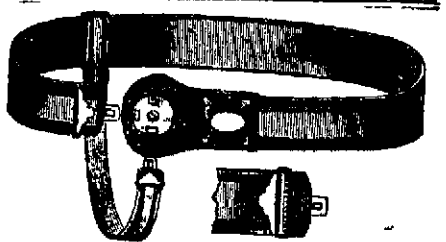

## HEADACHE AND DIZZINESS

Headache is never a disease. It is always a symptom. Applications, powders and pills that drag the headache into quietude are treating the symptoms, not the disease, always a useless proceeding and often harmful.

When headache is associated with some dizziness it is usually the result of nervous exhaustion and will continue as long as the person who is overworked allows the debility to continue. It rapidly disappears when rest and the proper tonic is taken.

Nervous exhaustion, the cause of such headaches and dizziness, results from a strain on the nerves with which the rebuilding work of the blood is unable to keep pace. The best tonic for such a condition is Dr. Williams' Pink Pills. These pills build up the blood and strengthen the nerves. With this treatment, unless the overwork worry, or whatever has caused the nervous breakdown, is persisted in, the headaches, dizziness, nervousness and irritability that characterize neurasthenia rapidly disappear.

The Dr. Williams Medicine Company, Schenectady, N. Y., will send free on request a helpful little book on the home treatment of nervous disorders. Dr. Williams' Pink Pills are obtainable at any drug store.

## ANTWERP TO BE CAPITAL DURING WAR

Paris, Aug. 19.—An official communication from Brussels made public today gives certain details of the transfer of the seat of the Belgian government from Brussels to Antwerp.

This transfer is not an immediate necessity, it is explained, but it is preferred to effect it now in a normal manner rather than risk interruption to governmental business.

The queen and the princess are at the Antwerp palace while the king is with the army.

## FINE PEACHES CASE'S ORCHARD

Peaches of superior quality and flavor can be bought fresh from the trees at Burton Case's fine orchard on the Mt. Vernon Road three miles north of Granville, just north of the brick school house.

Mr. Case sorts and grades the peaches, and you pay a reasonable price for what you get, whether first or second. If you can't drive to the orchard the peaches will be delivered in Granville at the retail price. Peaches so far have shown no tendency to rise. It would be well to put in your orders. 8-19431

## ACQUIT DEALERS ON CHARGES OF RAISING PRICES

Columbus, Aug. 19.—Retailers and wholesalers were exonerated on a charge of raising the price of sugar arbitrarily, by testimony given by I. V. Lyons, purchasing agent of the state board of administration today in the investigation started by Harvey E. Burns, United States assistant district attorney on orders from District Attorney Sherman T. McPherson. Columbus grocers, meat dealers and purchasing agents for a postal employees association testified concerning raises in food prices.

## GERMAN STEAMER AT HAMPTON ROADS

Norfolk, Va., Aug. 19.—The German tank steamer Dolphin, Captain Kriete, has arrived in Hampton Roads after dodging British and French warships for 12 days. The Dolphin left Hamburg July 29, four days before war was declared.

For eight nights the Dolphin burned no lights, and Captain Kriete says he was on the bridge for four days and nights without sleep. He ran his ship at full speed, and succeeded in eluding warships of England and France.

It takes nerve to face a dentist, generally an exposed nerve.

## One Corn Boy To State Fair Instead of Two

Columbus, Aug. 19.—Only one corn boy instead of two from each county will be brought to the state fair this year, according to an announcement made today by the state agricultural commission. For the last two years two boys from each county in the state have been guests at the fair. Shortage of tents, blankets and other supplies by the national guard was given as the reason why more could not be accommodated.

The commission had planned having a thousand or more boys here, but this plan was abandoned following protests by both the national guard and the state board of health.

## EXTENSION OF PARCELS POST WILL BE RESULT

Of the Investigation Made Into the Arbitrary Boosting of Food Prices.

Cleveland, Aug. 19.—Extension of the parcel post system here to provide for a direct outlet of produce from the farmer to the consumer will be one result of the federal and county investigation into the boosting of food prices, it was stated today. Postoffice officials were preparing a report of sixty days investigation which will recommend to Postmaster General Durlison that eight auto trucks be purchased and put in commission in Cleveland as soon as possible.

Food prices were still advancing today. Butter was retailing at 40 cents and eggs at 39, while steaks ranged in price from 24 to 45 cents a pound.

U. G. Denman, United States district attorney said two special agents from Washington were gathering data that will prove damaging to at least a half dozen Cleveland wholesalers.

## BADLY ARRANGED COMMISSARIAT OF GERMAN ARMY

London, Aug. 19.—5:15 A. M.—"There appears to be very little exaggeration in the accounts of the bad commissariat arrangements in the German army," says the Brussels correspondent of the Times.

"Prisoners brought in by the French yesterday had beet roots and carrots in their knapsacks. They have been living on these for several days. On the other hand the French commissariat is working splendidly."

## DECREASE IN THE NUMBER OF SALOONS

IN NEWARK MAY RESULT WHEN APPOINTMENT IS MADE BY LICENSE BOARD

A Renewal of Privilege of Doing Business Must Be Secured Each Year.

When Licking county saloonists seek renewal of their licenses beginning September 1, the county's apportionment of saloons will be two less, probably four, than was allowed by the state board when the first licenses were issued less than a year ago. There is little possibility that the apportionment will be increased by reason of any increase in population.

The saloon license law requires a renewal of the license of every saloon, each year. The applications may be filed any time from September 1 to 15. While the examination for licenses this year will be more rigid than that of last year, the good conduct of most of the dealers in Licking county indicates that none of the applicants will be refused, providing all the present dealers apply for renewal of saloon permits.

In all probability a number of new applications will be filed on the theory that some of the present dealers may be refused a renewal of their certificates.

The question of issuing a license for saloons in Hanover township has never been settled. It will be remembered that the state board in its original statement of the quota of saloons for this county, indicated that Hanover township was entitled to two.

When the applications were received for saloons there, the claim was made by residents of the township that the subdivision was dry and had been for a period of years. Secretary Larson of the local licensing commission, went to Hanover, secured all the available transcripts of records bearing on the case and submitted them to the state board which in turn sent them to the state's legal department asking for an opinion. This opinion has been rendered.

If it is found that this township is dry, the number of saloons allowed in the county will be reduced by two. Two other townships with one saloon each, Fallsbury and Licking, have since been voted dry, reducing the county's allotment by two more saloons.

Newark was allowed 55 retail places, the number being based on a population of which was estimated by the state board, figuring a certain per cent. of increase in a given length of time. It is not likely that the increase in less than a year will be sufficient to allow Newark another saloon.

According to a statement issued by the state board in Columbus, the board will "look with disfavor" on any applicant who in any manner pays anything for alleged aid in obtaining license. The services of an attorney are necessary for property completing the application. The board calls attention again to the statutory provisions about the sale of liquor. With the applications this year the boards will request of applicants, for the board's own use, pertinent information concerning the business of applicants. Among the queries are these:

"Do you own your bar fixtures?"  
"What rent do you pay for your place of business?"  
"If property is leased, give all conditions obtained in the lease."  
"Do you permit games of chance in your place of business?"  
"Have you any agreement to sell the product of any particular brewery only?"

"Do you pay your Akin tax direct or through a third party?"  
"Have you been arrested for any offense during the past year (give particulars)?"  
"Has any of your employees been arrested for any offense during the past year?"

"Do you permit women to frequent your place of business?"  
Mr. Larson of the Licking county board, stated that all the foregoing questions were asked of applicants here last year except those referring to the violation of the laws since the licenses were issued. The local board laid particular stress on the last question referring to the practice of allowing women to frequent their places of business.

## JOHNNY SHOVELIN PLEASES THE FANS AT NEIL PARK

Johnny Shovelin, infielder with the last baseball team Newark had, has joined the Columbus team and his action on the diamond has already won him a warm spot in the hearts of Columbus fans. His speed and style of fielding has already received favorable comment by the Columbus sport writers. He is handicapped by the great amount of time he has been accustomed to the skilled fields of the State league circuit. Clyde Tuttle of the Columbus Citizen predicts that he will become a permanent fixture in the batting order of the Senators. He has batted well above .300, this season in the State league.

## SOUTH AMERICA NEEDS GOODS OF UNITED STATES

(Associated Press Telegram)  
New York, Aug. 19.—The breaking off of commercial relations with Europe has resulted in an unprecedented demand from Latin-American countries for American goods, according to statements today of leading exporters of this city. Exporters say that they are rushed with orders from their agents, and one merchant declared that all the steamships now running to South America could handle only one-tenth of the tonnage that could be sold there at present or in the near future.

## MORE SHEEP IN DEMOCRATIC CO'S. THIS YEAR

Democratic counties in Ohio have more sheep this year than they have had for years, according to J. W. Tannehill, statistician in the office of State Auditor Donahay, while Republican counties have less. The figure and comparisons were declared by Tannehill to be remarkable. He ascribes the result to political opinions of wool growers. He is convinced the Democrats were wiser because wool is higher in price than it was before the Underwood tariff bill went into effect.

There have also been gains in the amount of livestock listed. The increase in horses, as shown by reports of Assessors, was 81,154, cattle, 224,103; mules and asses, 6,862; hogs, 450,260. A decrease in sheep was shown, the drop being 94,461. The reduction is far from being one of record size as the decrease of 1912 over 1911 was 347,356. Tannehill's political comparison and deductions follow:

"The following 12 counties gave Taft over Bryan in 1908 a plurality of 12,684: Athens, Belmont, Carroll, Delaware, Fayette, Guernsey, Harrison, Highland, Jefferson, Morgan, Morrow and Noble. These 12 counties show a decrease of 72,693 sheep since last year. The total decrease in the other 76 counties has been only 21,768.

"The following 12 counties (all Democratic but one, and it usually doubtful) gave Bryan over Taft in 1908 a plurality of 9,730: Ashland, Coshocton, Hancock, Hardin, Holmes, Marion, Richland, Seneca, Wyandot, Allen and Licking. The 12 counties have actually increased the number of their sheep over last year 8,814.

"These 24 counties have about 60 per cent. of the sheep of the state, while the remaining 64 counties have 40 per cent.

"For the first time in the history of Ohio the 12 Democratic counties, enumerated have more sheep than the 12 Republican counties mentioned.

"With wool at 28 cents this year, there are a lot of wool growers kicking themselves that they permitted political blatherskites to influence them in selling off their sheep. Morgan County shows the biggest loss of any county in Ohio the decrease being 13,138, or nearly one seventh of the total loss in the state.

"The total of all live stock in Ohio listed for taxation this year is as follows: Horses, 897,324; cattle, 1,484,183; mules, etc., 23,932; cattle, 1,888,538; hogs, 1,963,141. Drake ranks first in horses, with 20,981, and Vinton lowest, with 2,788. Ashabula leads in cattle, with 20,788, and Pike brings up the rear, with 6,182. Preble carries off the honors in the number of mules etc., with 1,072, only two more than Butler, while Ottawa, eschews the long-eared beasts, having only 33. Knox as usual, leads in the number of sheep, with 96,913, while Scioto with 1,043, is lowest. Dark passed Hancock this year in the number of hogs and stands at the head of the list, with 60,796, an increase of 19,324 over last year. They are fewer equals in Vinton than any other county—3,011 hogs."

## COUNCIL'S RIGHT TO FIX SALARIES OF CITY EMPLOYEES

(Associated Press Telegram)  
Columbus, Aug. 19.—Council and not the civil service commission of a municipality, has authority to determine the salary of employees under civil service, Attorney General T. S. Hogan declared in an opinion to the state civil service commission Tuesday.

In another opinion he holds that property of the Wood, Wire and Metal Lathers' International Union with headquarters at Cleveland, is taxable.  
To H. F. Castle, prosecuting attorney of Summit county the attorney general declares the Akron board of education has no authority to issue bonds to purchase site for a new school building to replace one condemned by the state building inspection department. This does not constitute an emergency, he says.

## ANOTHER PROBE OF STANDARD OIL IS NOW AGITATED

(Associated Press Telegram)  
Washington, Aug. 19.—Congressional investigation of charges that the Standard Oil Company is restraining trade in various oil fields by refusing to purchase from the producers, was proposed in a resolution yesterday by Senator Chilton of West Virginia.

Through ownership and control of pipe lines, the resolution says, the Standard Oil Company has for years fixed the price of crude oil at its pleasure and practically made the oil market. That it recently has revolutionized conditions in the oil business not only as to prices, but by refusing to run more than 22 per cent of oil produced and in refusing to buy the products of the wells, "had brought about chaos and ruin." The resolution was referred to a committee.

Goshorn has won two-thirds of his games with Chillicothe and it is claimed that his lack of height and weight is all that kept him from landing in the big leagues.

## ADVENTISTS IN CONFERENCE AT MT. VERNON

NEWARK ONE OF SEVENTY OHIO CHURCHES REPRESENTED AT GATHERING.

More Than Eight Hundred Attending and Over One Hundred Tents Pitched.

Mt. Vernon, Ohio, August 19.—There are more than eight hundred people attending the annual encampment of the Ohio Conference of Seventh Day Adventists now being held here, representing nearly seventy churches located in different parts of the state. The Zanesville and Newark churches are well represented, those present from these two cities including: Zanesville, Elder F. L. Henderson, Mrs. Florence Henderson, Mrs. Kate Nicholas, Mrs. Florence Bronker, Carl Krause, James Butler, Mrs. Myrtle Butler, Miss Mabel Butler, Mrs. Saltzger, Mrs. Barnett, Mr. Oscar Bronker, Mr. and Mrs. Samuel Collins, Miss Warnock, and Mrs. F. M. Russell.  
Newark: Mr. and Mrs. R. I. Francis, Mr. A. J. Kennedy, Miss Kate Lumley, Mr. and Mrs. J. W. Simmers, Mrs. Dorsey, Mrs. D. M. Guy, Mr. P. S. Gattin, Mr. and Mrs. Kaneirum, Mr. Hunt and Mrs. McDonald.

More than 100 tents have been pitched for living purposes and the dormitories of Mount Vernon College, a denominational institution, are also crowded with campers. The report of the treasurer shows that the conference is in a flourishing condition financially, increases in the tithe and mission offerings have been made last year.

The report says: "Tithe receipts for 1913 totaled \$39,605.31, which with the balance on hand January 1, 1913 of \$1,456.10 and the refund of \$1,649.42 gives a total of \$42,710.83. Of this amount \$25,642.14 has been paid in support of the home work, \$3,960.53 to the Columbia Union conference, \$1,980.27 to the Sustentation Fund, and 25 per cent or \$9,901.33 to Missions. The total of these expenditures (41,184.28) deducted from the total receipts leaves a balance of \$6,226.55. With the exception of \$62.46, Young Peoples' Society balance, the total trust funds of \$22,323.52 have all been forwarded to the General Conference, the governing body for use in different departments of the work. To this total add the tithe receipts, \$39,605.31, and the amount of refund, \$1,649.42, which gives the total receipts, all sources, for the year of \$63,578.25, an increase of \$8,344.26, 23 per cent over the previous year and 41 per cent over 1911. Of the mission funds, \$19,378.96 was credited on the twenty-cent-a-week plan for 1913 with a per capita average of 17-1/2c per week. Should we add the \$5,214.62 reported by our churches for local expense to the other receipts, a per capita of \$2.76 is shown in support of tithes and offerings or 17 per cent of the income indicated by our tithe receipts.

It was explained that the liberal offerings of the membership throughout North America made it possible to support mission stations in more than sixty countries of the world. Much is being said in the preaching services concerning the second coming of Christ, as the adventists believe that this event will take place while men of today are still alive.  
Dr. B. G. Wilkinson, president of the Columbia Union Conference declared that the European war is a fulfillment of prophecy and that it may be the forerunner to the battle of Armageddon when all nations will gather their forces around Jerusalem and that Christ will return while this battle is in progress.

**U. S. GOVERNMENT TO INSURE SHIPS CARRYING COMMERCE**  
(Associated Press Telegram)  
Washington, Aug. 19.—Emergency legislation to create a government bureau which would insure steamships transporting American products abroad during the war in Europe, was read for presentation in the House yesterday. It would supplement the new shipping bill passed by congress authorizing admittance of foreign built steamers to American registry and the protection of the United States flag.  
The measure which has the approval of the administration was one of the war emergency measures proposed at the recent Washington conference of business men. Secretary McAdoo and other cabinet members believed that unless a war risk insurance were provided, comparatively few steamers would take advantage of the new shipping law in the immediate future. The bill proposes the establishment of a \$5,000,000 insurance fund to be administered through a treasury department bureau.

The shipping bill was ready for President Wilson's signature yesterday. Proposals in the report of the Senate and House conferees on the bill that foreign built vessels taking American registry within the next two years be admitted to coastwise trade, were defeated.

# OHIO STATE FAIR

## BATTLE OF BRAIN BRAWN AND BREEDS

### AUG. 31 TO SEPT. 4

Nobody can see all of the Ohio State Fair in one day or week. Those who have the habit of attending know its value best and will come again.

Only those who see it can talk intelligently of its magnitude. Only those who have gone through its many departments can describe its bigness. He who has had the pleasure of seeing this great exposition is willing to say to his friends: "A State Fair trip is a good investment."

For years you have promised yourself a visit to the Capital City and State Fair. Now is the time to make good the promise. Relax and rest.

Thrice, daily, dish-washing appears upon the program of the house-wife. A husband ought to treat his wife to ice cream and soda after marriage. She wants to go with him to the Fair.

The boy has worked through the summer heat and dirt. He dreams of the Fair and City. He has earned a short vacation. Why not let his dream come true in 1914? He will pay in work.

Years and birthdays pass. Age comes on apace. Why put off the joys and sweets of life? Why wait for the "after while" that may never come? Most of our troubles don't happen. Do it now.

## Anna Swinburne, American Singer, and a Friend Are Lost In Europe.

MISS MARGARET ITTEN

MISS SWINBURNE

Ann Swinburn, the American singer, sent this photograph of herself and Miss Itten, a friend who was traveling with her, from St. Moritz July 28, three days before Germany declared war on Russia. She was going on to Rome within a few days. Since then nothing has been heard of her. Her relatives and friends have appealed to Ambassador Gerard in Germany and other American representatives but up to last week had learned nothing. Victor Herbert is anxious to have her here now to rehearse for the stellar roles in "Sweethearts," "Madame Modiste" and the "Madcap Duchess." She is to appear in each of these when the season opens.

## Pope Exhorts Whole World To Pray That War May Cease

(ASSOCIATED PRESS TELEGRAM)  
Rome, via London Aug. 19.—10:50 a. m.—The Pope has addressed the following exhortation to the whole world:

"At this moment when nearly the whole of Europe is being drawn into the vortex of a terrible war with its present dangers and miseries and the consequences to follow, the very thought of which must strike everyone with grief and horror, we, whose care is the life and welfare of so many citizens and peoples cannot but be deeply moved and our heart wrung with the bitterest sorrow.

"And in the midst of this universal confusion and peril we feel and know that both fatherly love and Apostolic ministry demand of us that we should

with all earnestly turn the thoughts of Christendom thither 'whence cometh help' to Christ, the prince of peace and the most powerful mediator between God and man.

"We charge, therefore, the Catholics of the whole world to approach the throne of grace and mercy, each and all of them, and more especially the clergy, whose duty furthermore it will be to make in every parish as their bishops shall direct, public supplication so that the merciful God may, as it were, be wearied with the prayers of His children and speedily remove the evil causes of war, giving to them who rule to think the thoughts of peace and not affliction."

Prince Albert a Pacific Steamer With Few Passengers Rapidly Breaking Up.

(ASSOCIATED PRESS TELEGRAM)  
Vancouver, B. C. Aug. 19.—Beating her way through a dense fog, in Brown's passage on her way from Masset to Prince Rupert, the Grand Trunk Pacific steamer Prince Albert foundered the Buttermilk Rocks, near South Dundas Island last night, and according to wireless reports; was breaking up rapidly.

Distress signals from the Prince Albert were first picked up by the wireless operator on Digby Island, which is separated by a narrow strait from Kalien Island. He at once sent out wireless calls to any ships that might be in the vicinity.

The first vessel to reply to the call for help was the Prince John, a sister ship, the Prince John. As far as could be learned there were only a few passengers on the Prince Albert.

## ENGLISH JOURNAL PROTESTS BARRING NEWSPAPER MEN

(ASSOCIATED PRESS TELEGRAM)  
London, Aug. 19.—5:50 A. M.—The Daily Telegraph in its leading editorial today protests against the action of the English and Belgian authorities in ousting newspaper men from the field of action.

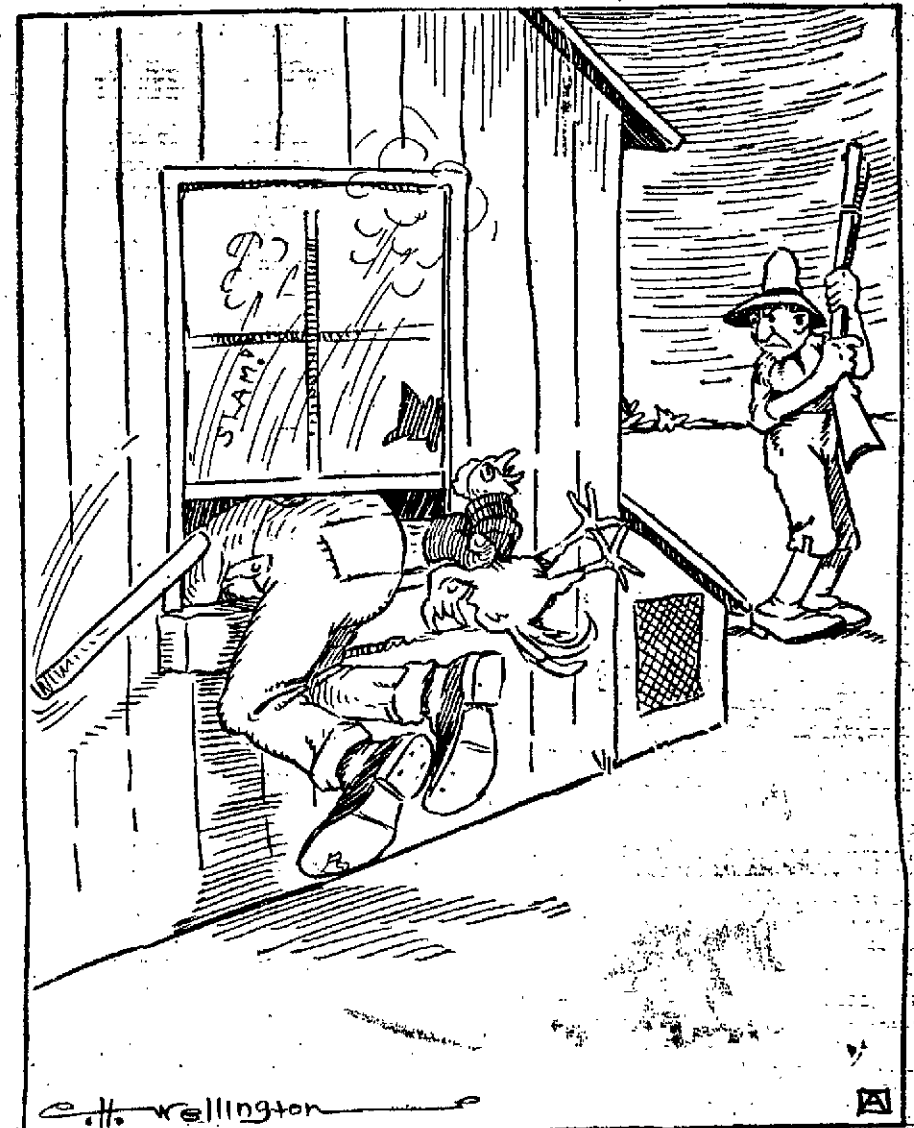

"The restrictions placed upon the work of war correspondents, go far," says the Telegraph, "than is justified by the attitude of the press and than is consistent with public interest."

"The newspapers do not ask unreasonable things. They do not desire to publish a line of thought undesirable. What they ask is only that the greatest war of modern times should not be fought in the total absence of independent and expert narrators."

15,000 FAMISHED  
RUSSIAN REFUGEES  
THROUGH STOCKHOLM

(ASSOCIATED PRESS TELEGRAM)  
Stockholm, Sweden, via London, Aug. 19.—5:05 P. M.—Fully 15,000 Russian refugees, from Germany, most of them exhausted, famished and sick have gone through Stockholm since the beginning of the war. From 1500 to 2000 have arrived daily, hotels, barracks and schools have been used for their housing and are filled to capacity every night.

These unfortunates are a heterogeneous gathering from all classes. Some of the refugees had been without food for three or four days before reaching Sweden. The trains were so packed that many of their occupants were obliged to stand for 24 hours at a stretch. The legs of many were swollen to require hospital attention.

## Granville

(Special to The Advocate)  
Granville, Aug. 19.—Mr. and Mrs. J. S. Jones left last night for Chicago. The Winter Picnic club was entertained today at the country home of Mr. and Mrs. David Owen on the Burg street road.

Mrs. M. G. Street of Cleveland who has been the guest of Mrs. W. P. Ullman during the past week, returned home yesterday.

Dr. G. F. McKibben has gone to Northport, Mich. to spend the remainder of the month with his daughter, Miss Mary, and his son, Dr. Paul McKibben of the University of Chicago.

Mr. Wayland Marlow and family, accompanied by his mother, Mrs. Louisa Marlow, and his sister, Miss Laura Marlow, motored to Chillicothe yesterday, visited various points of historic interest in that region and returned last evening.

It has been decided to omit the August meeting of the Ladies' Social Union, owing to the absence from town of many of the members.

Miss Edith Perry of Delaware is a Granville visitor, dividing her time between her grandparents, Mrs. John Larimore and Mrs. L. W. Perry.

Mr. Jack Darrow, recently of Denison university, spent two or three days in Granville this week.

The regular meeting of the Presbyterian Women's Missionary society has been omitted for August.

**The Luckless Procrastinator.**  
The procrastinator is always liable to be luckless. To postpone a duty that should be discharged at once is to invite trouble for all concerned. Many a man who is well disposed toward life insurance is still deferring the purchase of a policy which would be a boon to his family in the event of his death. The would be insured is in good health today, but tomorrow he may be stricken with a disease that may bar him from the ranks of the insurable. His reason for putting off securing a policy may be that it is inconvenient at present to pay the premium. But he should consider carefully the fact that life insurance will never be cheaper for him than it is today. His yearly premium on a policy taken out now would be appreciably less than would be the premium on a policy of the same amount taken out when he is a year older. Delay, therefore, will add somewhat to the yearly burden he would have to carry. The best thing for any uninsured man to do is to insure at once.—Leslie's Weekly.

**White Bread.**  
Hygienists have long called attention to the serious consequences of the increasing popular preference for white bread. At present dark colored bread is despised as "peasant's food." In the towns the meaneast workman will eat only white bread. The flour used for making this bread is obtained by passing the meal through a very fine sieve, so that it contains hardly anything but starch and cellulose. White bread, which plays an important role with the French people, is thus extremely poor in really nourishing food, and it is to the increasing consumption of it that many hygienists ascribe in France the racial enfeeblement, the diminution of stature and even the present development of tuberculosis. Representations have frequently been widely made on this subject, but without effect, for the bakers can provide only what the public demands.—Paris Letter to London Lancet.

**Thumbs of the Apes.**  
The gorilla and chimpanzee, which belong to the higher order of apes, have many points of resemblance to man, but there is one thing they cannot do—that is, twiddle their thumbs. In the gorilla the thumb is short and does not reach much beyond the bottom of the first joint of the forefinger. It is very much restricted in its movements, and the animal can neither twiddle his thumbs nor turn them round so that the tips describe a circle. There are the same number of bones in the hand of a gorilla as in the hand of a man, but the thumbs of the monkey have no separate dexter or bending muscle. This is why a monkey always keeps the thumb on the same side as the fingers and never bends it round any object that may be grasped. In the gorilla the web between the fingers extends to the second joint, the fingers taper to the tips, and there is a callous on the knuckles on which the animal rests when walking on all fours.

**Black Hand Remedy.**  
Arrangements are being completed for holding for an immense crowd at the annual Black Hand reunion which will be held at Black Hand on Thursday.

**TENNIS CHAMPION WILL BE DECIDED BY THURSDAY'S PLAY**

The Tennis championship of the city is to be decided in the match to be played between William Donald and Tony Reese at the White Athletic Field Thursday afternoon. These two young men have eliminated all other opponents who would contest for championship honors, and it remains for their duel Thursday afternoon to close the tournament. The winner of this match will be presented with a handsome racket and case. Both of these men are very evenly matched, and it is impossible for anybody but a past master in the art of possibilities to pick the winner.

It is planned by playground officials to arrange a match between Miss Martha Wright, tennis champion of Newark, and Miss Ford, tennis champion of Columbus.

**Newton's Shock.**  
The immortal discoverer of the law of the attraction of gravity was at one time beside himself. In his fiftieth year Newton suffered the severe shock from which he never fully recovered. A dog upset a lighted candle, and precious manuscripts embodying the results of many years' experiments in optics were destroyed. In consequence of this Newton's mind lost its balance. Brewster denies this, but about its truthfulness there is not much room for doubt. It is certain that for a considerable time his letters were quite incoherent and to be accounted for upon no other hypothesis than that of a disordered mentality. Newton slowly recovered and lived to be eighty-three years old.

Eight New Teachers Elected  
By School Board; Change to  
Be Made in Textbooks

Getting ready for the school bell chiefly in its session Tuesday night, Superintendent Wilson Hawkins, just returned from a vacation trip, started the wheels going in anticipation of the opening of schools.

Employing of eight city teachers was authorized by the board, and the following names and salaries were confirmed:

Elizabeth Robinson, \$560; Stella Daly, \$580; Emma Browne, \$520; Esther Mayer, \$420; Wilhelmina Mohlenbach, \$460; Isabel Somers, \$400; Lillian Johnson, \$400; Pearl Mercer, \$700.

Superintendent Hawkins reported receipt of the resignations of Edith Nutton, Helen Pligs, Bertha Latimer and Kate Sparks. Two of these teachers, Miss Pligs and Miss Sparks, have been married since their resignations were presented.

Three of the new teachers are designated as extra, one in Mound school, one in Conrad and one in Riverside.

The board adopted the superintendent's recommendation that Mrs. Margaret Browne be appointed principal of the Mill street school to succeed Miss Pugh in salary, and Mrs. year's leave of absence to complete her college course. Miss Browne succeeded Miss Pugh in salary, and Miss Edith Faye is advanced to the eighth grade in that school, filling Mrs. Browne's place at the eighth grade salary.

Janitors were elected for all schools, including the following new elections:

Mrs. G. L. Bowers at Franklin, Mrs. Copeland at Riverside, and transfer of Mr. Moser from Keller to Conrad. His successor at Conrad school is Mr. Bier.

The superintendent reported that

Principal O. J. Barnes, of the high school, had taken bids from three firms for the necessary yearly supplies for the science laboratories. The lowest bid was \$182.93, which is about the usual allowance. The board authorized him to proceed with the purchase.

Miss Leahy P. Orr, one of last year's graduates from the commercial department of the high school was elected as clerk to Principal Barnes, succeeded by Miss Florence Hurlbough, who has been appointed to a regular teaching position.

C. W. Klopp, supervisor of music, recommended that the Harmonic fourth music reader be used in the seventh grades in place of New Education fourth reader. The Harmonic second and third readers are already in use and he desires to continue the series. The change was allowed. It will affect seventh grade children only.

The following recommendation of Superintendent Hawkins regarding changes in textbooks was adopted by the board:

"In conjunction with the principal of the high school and respecting the wish of the teachers who teach the subjects, and upon an investigation of my own, I make the following additional recommendations regarding textbooks:

"1. Myers General History be adopted for use in the vocational and commercial courses.

"2. Bagster & Collins First Book in German be adopted for first year German text.

"3. Wentworth & Smith Revised Plane Geometry be used instead of Wentworth Geometry.

"4. Brigham Commercial Geography be used in the commercial course, instead of Adams Commercial Geography."

"BOOSTER DAY"  
NEXT SUNDAY  
IN NORTH END

Next Sunday, August 23rd, will be Booster Day for North Newark Christian Union, corner Maple and Norton.

About nine years ago, Rev. I. B. Dillin, of Coshocton, held a tent meeting on Manning street, the then extreme northern part of Newark, near the "North Fork." In that meeting a number of people accepted Christ as their personal Savior, and later the Christian Union organization was inaugurated. The new organization purchased two lots, corner of Maple and Norton, when the Talmadge Realty company opened the Talmadge Place Addition to the city of Newark, and erected a frame building, which they used as a chapel until in 1908 they erected the handsome concrete structure that now graces the corner of Maple and Norton. They then converted the "cottage" into a six-room dwelling cottage, for a parsonage. At the completion of the chapel and cottage, the organization had a property that cost \$11,000. They called to their aid Rev. D. L. Vandament, of Greenville, Ind., editor of the Christian Union Messenger, who preached the beautiful sermon and dedicated the chapel and cottage with appropriate service and ceremony with an indebtedness of \$4,500 assumed by the Trustees. Since the dedication, Rev. I. B. Dillin has passed to his eternal home, and Ernest Dillin, his son and successor as pastor, has been stricken with that dread disease, tuberculosis, and had to give up the pastorate. Rev. C. L. Peacock, then of Coshocton, now of Pennsylvania, supplied one year while Ernest Dillin was retained as pastor. Then Ernest gave up, and Rev. W. H. Baker became his pastor. In September, 1913, and has been re-elected for the coming pastoral year. At the Booster Day service, next Sunday, we want to raise the present indebtedness, in cash and subscriptions, which amounts to about \$3,000. We hope to meet a large crowd of people eager to help. Come determined to see this thing accomplished.

W. H. Baker, Pastor.

GERMAN PEOPLE  
DEPLORED WAR,  
IS TESTIMONY

(Associated Press Telegram.)

New York, Aug. 19.—E. G. Treat, a banker of Wheatport, N. Y., with his wife, were among the passengers on the steamer United States in yesterday from Copenhagen. They were in Berlin the day after the emperor addressed the populace from the palace. Mr. Treat said that he had heard the imperial chancellor talk to thousands who were gathered in the streets.

"Germans," said Mr. Treat, "did not want war. As the chancellor talked tears streamed from their faces. No one cheered or applauded his remarks. The final declaration of war was a blow to the people."

F. W. Blanchard, a city official of Los Angeles, also returned in the steamer of the United States. Mr. Blanchard was on his way to St. Petersburg when war was declared and was turned back at the border.

"On my way to Denmark I saw the Germans treat inoffensive Russians most inhumanly," he declared. "Russians were kicked about the streets like footballs, women and children included. Americans, however, were not maltreated, as far as I know."

Carrie Myers and Kate McManus, arrested Monday night on a charge of disorderly conduct, promised future good behavior when arraigned Tuesday morning and were allowed to go with fines suspended. Within 18 hours they were back in the city prison charged with drunk and disorderly conduct. Headquarters Officer Donley arrested them Tuesday night at 11:20 o'clock after complaint had been telephoned to headquarters. Mayor Bigbee fined each defendant \$20 and costs and ordered them committed to the city workhouse. The former suspension was revoked and the sentence ordered executed, so the two women will serve time on both charges.

GEESE PROVE TO  
BE DISASTROUS TO  
THIS PRISONER

Paul Gyoker, a foreigner, arrested last night on a charge of petit larceny, was unfortunate in having the officers find in his possession a number of geese which were alleged to be stolen. He pleaded not guilty to the charge of larceny and gave bond for his appearance for hearing Friday morning at 8 o'clock. He may also be charged with the theft of chickens.

Not up to Date.  
"My dear," said the proud father, "I cannot understand your objection to young Prudy as a son-in-law for you. I am sure that he is a model young man." "There is no question about his being a model," replied the bewitching beauty; "but, father, dear, the trouble is that he is a 1912 model."—Buffalo Commercial.

EAT LESS MEAT  
IF BACK HURTS

Take a glass of Salts to flush kidneys if bladder bothers you—Drink lots of water.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

## FASHIONS

THE LATEST FAD IS TO HAVE PICTURES PAINTED ON OVERSKIRTS. IT OCCURS TO US THAT MOST 'SKIRTS' PAINT THEMSELVES. BATHING SUITS ARE PRINCIPALLY COMPOSED OF BELTS AND SASHES THIS YEAR—SO MUCH SO, IN FACT, THAT ANY SUIT WITHOUT ONE OR THE OTHER IS ALMOST INDECENT.

## DOMIE

Mae had the men all hypnotized. Down at the beach this summer. She got engaged to ten of 'em. She really was a hummer. Just then a widow came along. The fetching seashore brand. And took the men away from Mae. And left her quite unmanned.
